

ITAL. OCT.10

Binding:

Original binding (15th century) made of leather (195 × 125 mm), in a bad state of preservation; three double elements to which the pages of the manuscript are attached. The initial protective leaf is made of parchment.

History:

The manuscript was prepared in Pesaro for the Fraternity of Good Jesus, which is one of the oldest fraternities in Pesaro, dating from 1447. There is no information concerning the owners of the manuscript until the 19th century, when the manuscript was kept in the collection of the Count Neri from Campo Ligure (the labels from an auction: *N. 184 / Impresa di Vendite in Milano / VENDITA C.^{te} Neri / Lotto N. 203 L.31*). In 1897 the manuscript was purchased by the Königliche Bibliothek, cf. the accession number *acc. 1897, 7*.
