

Ms. Gall. Quart. 140

## **Binding:**

Binding contemporary to the date of manuscript, made of brown leather (cf. mss. Gall. Fol. 137-140). Spine damaged.

## **History:**

Terminus post quem of the manuscript is marked with the date of 1669 (fol. 390r°). The hand-writing and the ornaments of the binding (cf. Macchi, *Dizionario...*, p. 142, third binding on the left) confirm that the copy was made in the 17<sup>th</sup> century at the latest. The place of origin was probably France. The volume belongs to the collection of mss. Gall. Quart. 137-140. On fol. 1r° there is a stamp of the Königliche Preussiche Bibliothek zu Erfurt with the following inscription: *KŒNIGL: PR: BIBLIOTHEK ZU ERFURT*. The copy was entered to the accession register of the Königlichen Bibliothek in Berlin under accession No. 1909. 195 on the 15<sup>th</sup> of June 1909, together with the note providing information about its origin: manuscript from the library in Erfurt acquired by the Königlichen Bibliothek zu Berlin under the agreement of the 2<sup>nd</sup> of September 1908 (see Acta III D 5 Rel 8).

## **Content:**

The copy contains two catalogues: the catalogue of popes (from St. Peter the Apostle to Clement IX) and the catalogue of ecumenical councils (starting from the Council of Nicaea). Considering the laconic nature of descriptions, the potential publication of the text is highly doubtful.
